

GDPR Policy Statement

As Managing Director of The Vehicle Group Ltd., I am proud to reaffirm our unwavering commitment to the principles and practices set out in the General Data Protection Regulation (GDPR) and the UK Data Protection Act 2018 (DPA 2018) as defined in this TVG policy. Our chief objective is to protect the privacy and safeguard the personal data of our employees, customers, suppliers, and all individuals with whom we interact.

Our approach to preserving your privacy and ensuring the highest level of data protection is underpinned by several key principles:

Lawfulness, Fairness, and Transparency are paramount to our operations. We are committed to ensuring that all personal data is processed lawfully, fairly, and transparently. We provide clear information about our data processing activities and consistently respect individuals' rights.

We practice Purpose Limitation, meaning personal data will only be collected for specified, explicit and legitimate purposes. We will not process data in a manner that is incompatible with these objectives.

Data Minimisation is critical. We ensure that personal data is adequate, relevant, and limited to what is necessary for the purposes of processing.

Accuracy is non-negotiable. We maintain up-to-date personal data and take all reasonable steps to ensure that inaccurate personal data is erased or rectified promptly.

We adhere to the principle of Storage Limitation, retaining personal data in a form that permits identification of data subjects for no longer than necessary for the purposes for which the data is processed.

Integrity and Confidentiality are vital. We process personal data in a way that ensures its appropriate security, which includes protection against unauthorised or unlawful processing and against accidental loss, destruction, or damage.

Finally, accountability is our commitment. We maintain relevant documentation on processing activities and are proactive in demonstrating compliance with the GDPR and DPA 2018.

Our commitment to data protection extends across all our activities. We continually strive to embed a culture of data protection throughout the entirety of TVG. We have established robust internal policies and practices, provided comprehensive training to our staff, and continuously assess and monitor our performance and compliance in relation to data protection.

Furthermore, we work closely with our suppliers and partners to ensure they also adhere to our high standards of data protection. In the event of any data breach, we have a rapid-response procedure in place, which ensures timely and transparent communication with all relevant parties.

We are firm believers in the principles of data protection by design and by default. We are dedicated to integrating these principles into all new and existing services, products, and operations involving personal data.

In conclusion, our obligation to protect personal data extends beyond legal requirement. It is a fundamental component of the trust that underpins our relationships with all stakeholders. I assure you of our unwavering commitment to treating all personal data with the utmost standards of safety, respect, and responsibility.

Should you have any questions or require further information regarding our approach to GDPR and DPA 2018 compliance, please do not hesitate to contact our Data Protection Officer at GDPR@thevehiclegroup.com.
